Western Regional Board Exam  
Anesthesia and Dental Hygiene Board Exam June 5-6, 2010.

1. Room B101 will be the classroom for the candidates to facilitate the local anesthesia written exam and orientation for the Local Anesthesia and Dental Hygiene Exams. Room R173 will be the Examiners area for orientation and refreshments; it will have a computer and LCD projector set up. R164, R165 and R166 will be reserved for the clinical exam; this does include the clinical facilities for students, examiners and radiology.
2. Parking should be not a problem; candidates, patients, and examiners can park anywhere in the north parking lot. On weekends the parking lot is almost empty. If the candidates use the north door to the left of the main entrance, they will be in the Health Science area and will not have a problem finding the clinical area.
3. Sharps containers, along with biohazard bags will be located in several places throughout the clinical area. We have a company pick up sharps and biohazard materials so you will not be responsible for the removal of these items. A cart of expendable materials supplied for all candidates will be located in the clinic for easy access. An outline of specific instructions to follow for sanitization of operatories and preparing them for client treatment is posted and will be given to candidates during the tour portion of exam. Everything needed to fulfill the preparation and take down will be easily accessible.
4. Enclosed is a map of school location and list of motels close to the college.
5. All mandatory supplies will be available for candidates along with local anesthetic and needles. These will be located on a cart in the clinic and extras will be available in the sterilization room.
6. At this time we will not be renting equipment to candidates as all of our new equipment has been purchased by a grant and rental right now is not in our best interest.
7. Emergency equipment is located in the student kiosk in the clinic. There is an E-cylinder oxygen tank along with an emergency medical cart. This medical emergency equipment is located easily as a red and green cross hangs from the ceiling above them. An eye wash station is located in the examination area, sterilization area, and main clinic.
8. Patient Screening can be completed in the clinic Thursday and Friday prior to the exam by appointment. After requests have been made the specific times will be narrowed down to a block of time based on interest. Call the Dental Clinic Manager (406) 771-4364 to make the appointment. A minimal fee of \$5.00 is requested to reimburse the program for cost of barriers and supplies for the screenings. Radiographic film packets will not be dispersed unless it if requested by supervising dentist during the main exam.
9. There are hookups for hand pieces, prophyl angles, and ultrasonic devices on the dental chair. The dental chairs are new Dental EZ chairs, right hand or left hand capabilities with standard hookups.

10. The MSUCOT dental clinic does use disposable air/water syringe tips. These will be provided and is included in the school use fee.
11. If radiographs are requested by the supervising dentist during the exam access to a machine and processor will be available and is separate from the clinic but close by.
12. Sterilization equipment is available and will be open until the close of the exam day.
13. A practitioner from the school is not available to administer local anesthesia to candidate's patients. There is no exception to this policy.
14. An outline of infection control policy for the area will be posted in close access for review and instructions. An additional cart will be available with barriers etc. in the area for the examiners to use.
15. Tour: Site coordinator has not been determined as of yet but Kim Woloszyn will be the contact person until the determination of one. The site coordinator will be the contact person for the examiners and will walk the team and the candidates through the area.
16. The MSU-Great Falls College of Technology Cafeteria will cater the weekend. Contact information for the caterer is Sandy Brown (406) 771-4368 she will be happy to work with you on a menu.
